

# The 4T Study

Teamwork, Technology, Targets and Tight Control

## CGM

Early access to continuous glucose monitor

## Remote Monitoring

Regular CGM data review from a diabetes educator

## Hemoglobin A1c (HbA1c)

Collected every 3 months at home or in clinic

## Patient Reported Outcome Surveys (PROs)

Surveys to help us understand your experience as a patient with T1D

## Pre-Pump Classes

Early education on available insulin delivery technology

## Activity Tracking and Exercise Education

Wearable activity trackers and extra education sessions about diabetes and exercise
