

The 4T Study

Teamwork, Technology, Targets and Tight Control

Continuous Glucose Monitoring (CGM)
Early access to CGM

Remote Monitoring
Regular CGM data review from a diabetes educator

Hemoglobin A1c (HbA1c)
Collected every 3 months at home or in clinic

Patient Reported Outcome Surveys (PROs)
Surveys to help us understand your experience as a patient with T1D

Pre-Pump Classes
Early education on available insulin delivery technology
